Does Early Treatment of Acute Inflammation of the Middle Ear Prevent the More Serious Complications? By **E. L. Meierhof** . . . 1

Reports of Societies:

1. Report of the Seventy-Third Meeting of the **German Naturalists and Physicians in Hamburg,** September 28, 1901. Section on Diseases of the Throat, Nose, and Ear. By Drs. **Senff** and **Thaler** 7

LUCAE: Function of the membrane of the round window; successful operation on the round window, 7. FRIEDRICH: Observations on the diagnostic value of acoustic-nerve reaction, 8. HARTMANN: The Deaf in Schools, 8. PETERS: Vertigo in eye diseases, 9. SUCHANNEK: Forman, 9. WINCKLER: Modifications of line of incision in exposure and after-treatment of diseased middle-ear cavities, 10. WINCKLER: Accessory-sinus disease, 11. SCHEIBE: Soft papilloma of nose, 12. SCHEIER: Anomalies of nasal accessory cavities, 13. PARTSCH: Dental origin of empyema of antrum of Highmore, 13. DEMME: Vascular anomalies of pharynx, 13. SCHROETTER: Peculiar nasal condition, 14. SCHWARTZE: Changes in fundus oculi in intracranial complications of purulent otitis media, 14. GUYE: Curetting sphenoidal cavities in relapsing nasal polypi, 15. REINHARD: Chronic purulent otitis complicated by fracture of base of skull, 16. CORDES: Treatment of dry middle-ear catarrh with air rarefaction in external canal, 16. F. KLEMPERER and M. SCHEIER: Identity of bacilli of rhinoscleroma and ozæna with Friedländer's bacillus, 16. SIEBENMANN: Knowledge of genuine ozæna, 17.

2. Proceedings of the **Otological Society of the United Kingdom.** Annual General Meeting, Monday, December 2, 1901. By **W. Milligan,** Secretary 17

LAKE: Removal of necrosed labyrinth, 17. COBBLEDICK: Visible transmission of pulsations to scar in membrana tympani, 18. MILLIGAN: Complete mastoid operation; grafting, 18. D. GRANT and C. A. BALLANCE: Temporo-sphenoidal abscess, 19. C. A. BALLANCE: Ragged opening in dura closed by epithelial graft, 20. F. C. ABBOTT: Carcinoma of auditory meatus, 20. CHEATLE: Abnormal membrane in osseous meatus, 21. MACN. JONES: Membrane completely across meatus, 22. PRITCHARD: Aspergillus, 22. FAGGE: Tuberculous disease of temporal bone, 22.

PAGE

3. Report of the Transactions of the **New York Otological Society.** By **H. A. Alderton,** Secretary. Meeting of Nov. 26, 1901 24

KIPP: Presented Trautman's set of models illustrating steps of operation on mastoid, 24. WHITING: Drawing illustrating extraordinary development of cells at posterior root of zygoma, 24. SHATTUCK: Apparatus of Alderton connected with an electric current producing reaction of facial nerve before injury is done, 24. KIPP: Ménière's symptom-complex, 25. GRUENING: Meningitis serosa, 26. DENCH: Syphilitic inflammation of labyrinth, 26. A. KNAPP: Isolated disease of external semicircular canal in acute mastoiditis, 27. MCKERNON: Case of sudden deafness in both ears from alcohol, 28. N. BRANDEGEE: Mastoiditis in infant of five months, 28.

Meeting of January 28, 1902. Reported by Dr. **A. Knapp,** Sec'y.

PYLE: Otorrhœa; vertigo and right facial paralysis, 28. LEWIS: Case of spontaneous atrophy of middle-ear walls as if radical operation had been performed, 29. H. KNAPP: Young lady with extreme perichondritis, 30. KIPP: Recovery from objective vascular tinnitus, five years' standing, 31. GRUENING: Measles; otitis with complications, 33. MCKERNON: Labyrinthine deafness, 34.

4. Report of the Transactions of the **Section on Otology of the New York Academy of Medicine.** By **J. A. Kenefick,** Sec'y. Meeting of Dec. 11, 1901 35

RANDALL: On teaching of otology, 35. Discussion by Drs. W. C. Phillips, E. B. Dench, Whiting, Tansley, Myles, Randall.

Stated Meeting, January 9, 1902.

Presentation of specimens, 41. DENCH: Cerebellar abscess, 41. MCKERNON: Brain showing temporo-sphenoidal abscess, 45. HASKIN: Mastoid neuralgia, 46. JACK: Operation upon brain abscess following suppurative middle-ear disease, 48. WALTON: Aphasia persisting during convalescence after evacuation of brain abscess, 49. Discussion, 51.

Report on the Progress of Otology in the Third Quarter of the Year 1901. By **A. Hartmann** 58

Anatomy, 58. Physiology, 58. General, 59. General pathology, 60. Examination and treatment, 61. External ear, 64. Middle ear, 65. Nose, 70. Accessory sinuses, 73. Pharynx, 77.

Book Notices 80

Tension Anomalies in the Sound-Transmitting Apparatus of the Middle Ear. By **Clarence John Blake,** M.D., of Boston 89

A Case of Cerebellar Abscess after Infection through the Labyrinth. Death from Meningitis. Autopsy. By Dr. **Arnold Knapp,** New York 99

Toxæmia from Suppuration in the Temporal Bone. By Dr. **H. Eulenstein,** of Frankfurt a. M., Gy. Translated and Abridged by Dr. EDWIN M. COX, of New York 104

The Inferior Occipital Plate of the Mastoid, with Especial Reference to Bezold's Mastoiditis. By **John Dunn,** M.D., Richmond, Va. . 108

Suppurations in the Labyrinth. By Dr. **Victor Hinsberg.** Translated and Abridged by Dr. RICHARD JORDAN, New York. (*To be concluded*) 112

Reports of Societies:

1. Report of the Transactions of the **Sections on Otology of the New York Academy of Medicine.** By Dr. **Joseph Kenefick,** Secretary. Meeting of February 13, 1902 . . . 131

PHILLIPS: Bezold mastoiditis without rupture of the drum membrane, 131. LEDERMAN: Case simulating mastoiditis, 132. MEIERHOF: Does the early treatment of ac. otitis prevent the more serious complications, 133 (published in full, No. 1., p. 1, of this volume). BATES: A new treatment for deafness from chronic catarrh of the middle ear, 136.

Meeting of March 13, 1902.

ARNOLD KNAPP: Case of cerebellar abscess, 139 (published in full, p. 99). BLAKE: Tension anomalies in the sound-transmitting apparatus of the middle ear, 140 (published in full, p. 89).

2. Report on the Transactions of the **New York Otological Society.** By Dr. **Arnold Knapp,** Secretary. Meeting of March 25, 1902 . 149

WILSON: Empyema of ethmoidal and frontal sinuses, 149. KENEFICK: Disturbance of equilibrium, 151. ARNOLD KNAPP: Complete mastoid operation with primary skin grafting, 151. BACON: Aural complication after severe measles, 152. BRANDEGEE: Late pyæmic infection, 153. DENCH: Severe mastoiditis with late sinus thrombosis, 153. GRUENING: Late sinus infection, 154. WHITING: Extensive pyæmic infection, 155. HARRIS: Tubal occlusion, 155.

Book Notices 157

III.—Atlas and Epitome of Otology. By Gustav Brühl.

IV.—Die Berufskrankheiten des Ohres und der oberen Luftwege. Von Dr. F. Köpke.

V.—La Surdi-Mutité. By Dr. St.-Hilaire.

VI.—Die otitischen Erkrankungen des Hirns, der Hirnhäute und der Blutleiter. Von Professor O. Körner.

VII.—Some Thoughts on the Principles of Local Treatment in Diseases of the Upper Air Passages. By Sir Felix Semon, M.A., F.R.C.P.

NUMBER 3.

PAGE

Suppurations in the Labyrinth. By Dr. **Victor Hinsberg.** Abridged and Translated by Dr. RICHARD JORDAN, New York. (*Concluded*) 161

A Case of Primary Acute Purulent Inflammation of the Mastoid Cells, Involving neither the Middle Ear nor the Mastoid Antrum. By **John Dunn,** M.D., Richmond, Va. 178

A Contribution to the Pathology and Diagnosis of Tuberculous Otitis Media. By **G. K. Grimmer,** B.A. (Canada); M.D., F.R.C.S., Ed. (With Text-plate I.) 181

Report on the Transactions of the **Section on Otology of the New York Academy of Medicine.** By Dr. **Joseph Kenefick.** Meeting of April 10, 1902 231

GUTTMAN: Cutaneous horn of the auricle, 231. HARRIS: 1—Acute otitis, perforation of tegmen tympani; pachymeningitis, death, 231. 2—Sinus thrombosis, ligation of jugular vein; recovery, 233. RICHARDS: Operative treatment of chronic purulent otitis, 237.

Report on the Progress of Otology in the Fourth Quarter of the Year 1901. By Dr. **A. Hartmann** 247

Anatomy and Physiology, 247. General, 250. External ear, 253. Middle ear, 254. Nose and naso-pharynx, 267.

Obituary 280

Professor Trautmann.

Miscellaneous Notes 280

NUMBER 4.

A Study of Papuan Hearing. By **Charles S. Myers,** M.A., M.D., Cambridge, England 283

On the Value of Electrolysis in the Eustachian Tube. By **Norval H. Pierce,** M.D. 289

Acute Empyema of Frontal Sinus—Operation—Death. By Dr. **Von Wild,** Frankfurt, Germany. Translated by Dr. ARNOLD KNAPP . 297

Statistical Report on the Result of the Examination of a Second Series of Deaf-Mutes. By Prof. **F. Bezold,** Munich. Abstract by H. KNAPP. (With Plate IX. of Vol. XXXVI. of the German Edition). 301

On Diseases of the Ear in Hysterical Subjects. By Dr. **Voss,** Riga. Translated and Abridged by Dr. JULIUS WOLFF, New York . . 304

PAGE

The Involvement of the Gasserian Ganglion in Middle-Ear Suppuration. By Dr. **Robert Hilgermann,** Breslau. Translated by Dr. ARNOLD KNAPP 321

The Inmates of the Westphalian Provincial Deaf-Mute Institute, at Soest, Prussia. By Dr. **A. Denker,** of Hagen. Abstract by Dr. H. KNAPP. (With Plate XI. of Vol. XXXVI. of the German Edition) . . 333

Reports of Societies:

1. Report on the Transactions of the **New York Otological Society.** By Dr. **Arnold Knapp,** Secretary. Meeting of May 27, 1902 336

WILSON: Case of localized purulent meningitis — recovery, 336. TOEPLITZ: Specimen of brain abscess and temporal bone, 337. HARRIS: Double mastoiditis with meningeal symptoms, 338. BERENS: Mastoiditis complicated with malaria, 338. STEPHENS: Brain abscess, 339. LEWIS: Brain abscess, 340. ARNOLD KNAPP: Foreign body in auditory canal and tympanum, 342.

2. Report on the Transactions of the **Section on Otology of the New York Academy of Medicine.** By Dr. **Joseph Kenefick.** Meeting of May 8, 1902 344

DENCH: Mastoiditis with thrombosis of the lateral sinus—ligation of the internal jugular vein—recovery, 344. PHILLIPS: Recent Stacke operation with wound closure by buried sutures, 347. CHAMBERS: Wound closure by buried sutures, 348. BRANDEGEE: Extensive epidural abscess, 350. RAE: Extensive caries of the mastoid without perforation of the drum, 352. HASKIN: Tuberculosis of the middle ear, 356. POOLEY: Specific labyrinthine deafness, 360.

Book Notices 364

VIII.—Lehrbuch der Ohrenheilkunde (Text-book of Otology). By Prof. L. Jacobson, M.D., and Dr. L. Blau.

IX.—A Manual of Otology. By Gorham Bacon, A.M., M.D.

X.—Diseases of the Nose, Pharynx, and Ear. By Henry Gradle, M.D.

NUMBER 5.

Purulent Phlebitis of the Sigmoid Sinus without Thrombosis; Death from Meningitis; Autopsy. By Dr. **Arnold Knapp** 369

A Case of Chronic Purulent Otitis; Extradural Abscess; Meningitis; Death; Autopsy. By Dr. **Arnold Knapp** 373

Collodium after Nose Operations. By Dr. **Kaspar Pischel,** San Francisco 376

In Regard to a Case of Primary Acute Purulent Inflammation of the Mastoid Cells, Involving neither the Middle Ear nor the Mastoid Antrum; Reported by JOHN DUNN, M.D. By **E. F. Snydacker,** M.D. 378

PAGE

Histological Study of Tumors of the External Ear. By Dr. **Franz Alexander.** Abridged Translation by Dr. ADOLPH O. PFINGST, Louisville, Ky. (With Plate V. of Vol. XXXVIII. of German Edition) 380

On the Local Action of Tri-Chlor-Acetic Acid. By Dr. **Hugo Schwabe.** Abridged Translation by Dr. CARL MUND, New York . . . 394

Reports of Societies:

1. Abstracts of Papers Read at the Meeting of the **American Otological Society** at New London, July 15, 1902 . . . 401

H. O. REIK: The cardiac effect of operations upon the middle ear, 401. B. A. RANDALL: Trauma in relation to exfoliation of the adult labyrinth, 402. SAMUEL THEOBALD: What means, other than operation, have we for preventing and combating inflammation of the mastoid cells? 402. CHAS. J. KIPP: A case of sarcoma of the temporal bone, 403. T. R. POOLEY: Stacke's operation, 405. HERMAN KNAPP: Case of word-deafness and word-blindness, 405. GEORGE B. MCAULIFFE: Observations on anæsthesia of the drum membrane, 406. FREDERICK L. JACK: Supplementary report on a case of double stapedectomy operated upon ten years ago, 407. E. GRUENING: Thrombosis of the sigmoid sinus, 408.

2. Report of the Eleventh Meeting of the **German Otological Society** in Trier, May 16 and 17, 1902. By Dr. **Arthur Hartmann.** Translated by Dr. ARNOLD KNAPP . . . 410

BEZOLD and KOERNER: Acute purulent otitis, 410. RÖPKE: Accidents of the ear and the relative estimate of loss in earning ability in the sense of the accident-insurance law, 413. KILLIAN: My method of radical operation for chronic empyema of the frontal sinus, 413. STREIT: Method of exploring the anterior surface of the petrous pyramid in search for deep-seated morbid processes of the petrous bone, 413. OSTMANN: Results of the hearing examination in nine cases of acute perforative middle-ear inflammation, 413. KÜMMEL: Telephonic examination of the hearing, 414. ESCHWEILER: On nystagmus in one-sided defects of the labyrinth, 414; Demonstration of the embryology of the muscles of the middle ear, 414. SIEBENMANN: Pathological conditions found in the labyrinth of a congenital deaf-mute, 414. RUDLOFF: Changes in the cartilages of the Eustachian tube in hyperplasia of the pharyngeal tonsil, 414. BRIEGER: Otitic serous meningitis, 414. BLOCH: What do we call a high palate? 415. JANSEN: Experiences with chronic suppuration of the accessory cavities, 415. DENKER: Ankylosis of the stapes, 416.

Report of the Progress of Otology during the First Quarter of the Year 1902. By Dr. **A. Hartmann,** Berlin. Translated by Dr. ARNOLD KNAPP 417

Anatomy, 417. Physiology, 418. General, 420. External ear, 428. Middle ear, 429. Nervous apparatus, 433. Nose and naso-pharynx, 435. Pharynx and buccal cavity, 440.

Book Notices 442

XI.—Diseases of the Throat, Nose, and Ear. By C. P. Grayson, M.D.

XII.—Essentials of Diseases of the Ear. By E. B. Gleason, M.D.

NUMBER 6.

PAGE

Multiple Sinus Thrombosis ; Cerebellar Abscess and Meningitis, probably Originating from an Osteo-Myelitis of the Sphenoid. By Dr. **Harold Wilson,** Detroit, Mich. (With two figures on Text-plate II. and a temperature chart in the text) 443

Contribution on Otogenous Disease of the Brain, Meninges, and Venous Sinuses. By Dr. **Sturm** and Dr. **Suckstorff.** Translated and Abridged by Dr. ADOLPH O. PFINGST. (Continued from page 490, Vol. XXX., of these ARCHIVES) 453

The Use of the Rotatory Bur in the Treatment of Chronic Suppuration of the Middle Ear. By Dr. **Sturm.** Translated by Dr. ADOLPH O. PFINGST, Louisville, Ky. 462

Vertigo. By Dr. **Rudolph Panse.** Translated by Dr. ARNOLD KNAPP 467

Report on the Transactions of the **Section on Otology of the New York Academy of Medicine.** By Dr. **Joseph Kenefick.** Meeting of October 16, 1902 521

PHILLIPS: Latent healing of extensive mastoid wound treated by means of skin graft, 521. DENCH: Sarcoma of the middle ear and mastoid, 522. HORN: Epithelioma of tragus, 523. HARRIS: Continued mastoid pain after operation, 523. STAPLER: Report of cases and technique of procedure in establishing hearing for deaf-mutes, 525.

Index to Authors and Subjects of Vol. XXXI 527
